About Me

Hello, I am Vikrant Mishra an IT Engineer from Sinhgad Institute of Technology in Pune University. I have a humble beginning from Bhiwandi city in Maharashtra. Graduated in 2022 batch right now a fresher, who eager to learn and explore in the industry. Good learner and consider myself optimistic. Looking for much needed opportunity.

Experience

Final Year Project | Bachelor's of Engineering (B.E) *Virtual Trial Room*

A Virtual Trial Room application using deep learning which allows a user to try on virtual clothes. The user pose and depth is tracked using the camera and virtual clothes are aligned with the tracked user. The goal of this project is to create a Virtual Trial Room application that uses augmented reality to allow users to try on different colors of clothing.
